Concurrent Session 3B:
Returning to Health: How Clinical Navigation Can Bridge Gaps in Care in a Post-COVID World
The recent COVID-19 pandemic has upended our health care system, unveiling serious gaps in care across primary care, specialty care, behavioral health, complex care and more. Patients — not sure how to safely “re-enter” the health care system — are deferring and even cancelling important care. As employers prepare for the “new normal” after COVID-19 and a likely second wave in the Fall, it’ll be important to incorporate return-to-health tactics into their overall benefits strategy to ensure their members safely get the care they need. In this session, learn how clinical navigation can help employers continue to drive positive health outcomes, reduce waste, and deliver a simple and accessible member experience during this unprecedented time in our health care system.

Telemedicine / Virtual Care

From Nice-to-Have to Need-to-Have: Virtual Care Is Now a Strategic Imperative
June 29, 3:00 – 3:50 pm ET, Concurrent Session 12C

Now, more than ever, virtual care has a critical role to play across a spectrum of health care needs. Having a comprehensive virtual care strategy in place can empower employees with a better way to access a spectrum of quality, affordable care in their time of need. This session will explore best practices for making virtual care a key component of your benefits strategy during crisis and beyond.
