[Metrics for Innovation Leaders: Using Metrics to Drive Better Outcomes](#)

The Signposts of Innovation framework provides businesses with a starting point for measuring both financial metrics and nonfinancial ones. Businesses can choose from the extensive lists only the metrics that are most applicable to their own operations—flexibility, customization, and simplification are essential.

[Future of Work in Asia: The Digital Transformation Journey and Its Impact on How Work Gets Done](#)
April 2019 | Key Business Issues

Hiring, developing, and training talent in Asia-Pacific and China will change as data provides critical insight into how to create customized individual retention strategies.

[Driving Digital Transformation: What Does it Take to Lead?](#)

We investigate the role of the "digital leader:" the executive or executives responsible for leading the company's overall digital transformation effort. This report describes their role; the skills and competencies they need; who they are (their title and reporting line); and their career path (functional and business experience, from inside or outside the organization).
